EXPERIENCE

Airtank MAY 2021 - AUGUST 2021 **Fullstack Software Engineer**

- Built marketing websites for various clients of using both the Shopify platform and Ziftrshop an e-commerce platform developed by Airtank. Used HTML, CSS(through SASS) and JavaScript.
- Interfaced with project managers and other team members to resolve technical questions & accessibility concerns for projects being built.

Chase Bank JUNE 2020 - MAY 2021 **Frontend Software Engineer**

- Built new features for customer dashboards. Work involved making sure UI components were accessible for a wide audience. Utilized HTML, CSS(through LESS) and an Angular inspired JavaScript framework.
- Reviewed code for other engineers. Mentored less experienced engineers and gave advice as needed.

OCLC SEPTEMBER 2018 - MAY 2020 **Software Developer**

- Involved in a weekly support rotation between members of my team. We help resolve questions from our customer support teams/other teams within OCLC. We also make sure project dependencies are updated and help out with other tasks.
- Converted the front end of our user login application(which serves over 20,000 different libraries) from YUI to ES6/TypeScript using Google's Material Design in order to provide a login experience that uses current design trends and performs well on mobile devices. Also makes use of semantic HTML and ARIA for accessibility.
- Rewrote part of our user login/authentication application with React/Material UI components. React allowed us to have a quicker and faster development experience by giving us pre built components from npm as well as build a more consistent style guide, using Material UI Theming support as a base
- Wrote new API endpoints in Java for a React/Material UI component within in a legacy YUI app. Specifically working within an administrative management application for librarians/staff in an library.

Root Inc. SEPTEMBER 2015 - SEPTEMBER 2018 **Software Developer**

- Lead the rewriting of custom grunt plugins to work with a new webpack build system for our SPA framework. Utilizing webpack allowed us be consistent with the rest of our team's tech stacks for various projects and be more adaptable for the future.
- Lead the development to rebuild our JQuery SPA framework in ES6/Webpack instead of JQuery/Grunt.
- Worked with a team(also solo) to develop SPA apps in JQuery for clients. Collaborated with artists and content designers to build applications that met the client's needs.
- Worked with a team of developers to make updates and add features to internal Node JS applications for our development team.

EDUCATION

Olivet Nazarene University SEPTEMBER 2011 - MAY 2015 **Bachelor's, Computer Science**

SKILLS

JavaScript, TypeScript, HTML, CSS, Java, React, React Native, Material UI, Jest, Webpack, SCSS, NodeJS, Spock, Spring, SQL
